

Phoenix Metro Area Local Members, message from HR this evening. The Struggles Continue!

Joe:

We just received messaging from our District Finance Manager that HQ's has advised that many of the PP 21 pay adjustments were not successful. Many of the pay adjustments were entered correctly but did not transfer over to the Main frame to be paid in PP 22. At this time, we do not know which employees' pay adjustments were successful and while ones failed. Employees may still request a salary advance and the adjust pay application will open on Wednesday October 31, 2018 for managers to issue salary advances.

This is a very disconcerting development...our employees don't deserve not being paid properly. But please be aware that HQ's is working on a solution to fix the problem.

Manager, Human Resources
Arizona/New Mexico District
